TELERADIOLOGY SOLUTIONS

Tele-Radiology Reporting through Expert Eyes

EXPERT-i

TELERADIOLOGY SOLUTIONS

a. Business Official Name & Type:
Expert-i Teleradiology Solutions, S.A.E.

b. Company Registration Number:
10350 Alexandria, Egypt

c. Tax Reference Number:
553-071-297

BUSINESS CONCEPT

Tele-Radiology Concept

- Tele-radiology is the transmission of digital medical images of patients, such as x-rays, CTs, and MRIs, from any healthcare facility (hospital or imaging center), over the internet, to remotely located radiologists for interpretation and diagnosis.
- It is a concept that allows for specialization and growth of radiology services without the need for dedicated expert radiologists onsite.

Competitiveness

- No hidden or fixed Fees.
- Pay only for what you need on monthly basis.
- Very competitive pricing packages for highly loaded facilities.
- Free Cloud-PACS image storage for 1 Month.

Quality Policy

Complete protection of healthcare facility / patient data privacy & security.

Local and cloud storage of client data and medical images.

BUSINESS CONCEPT

Work-flow Model

- Patient is scanned at the healthcare facility.
- Automated upload of imaging data to our cloud service.
- **Expert-i** ensures, the Right Radiologist reads the Right Study at the Right Time.
- Report is sent back to the facility within agreed turn-around time (TAT).

BUSINESS CONCEPT

Minimum Infrastructure Requirements

- **The client is responsible for:**

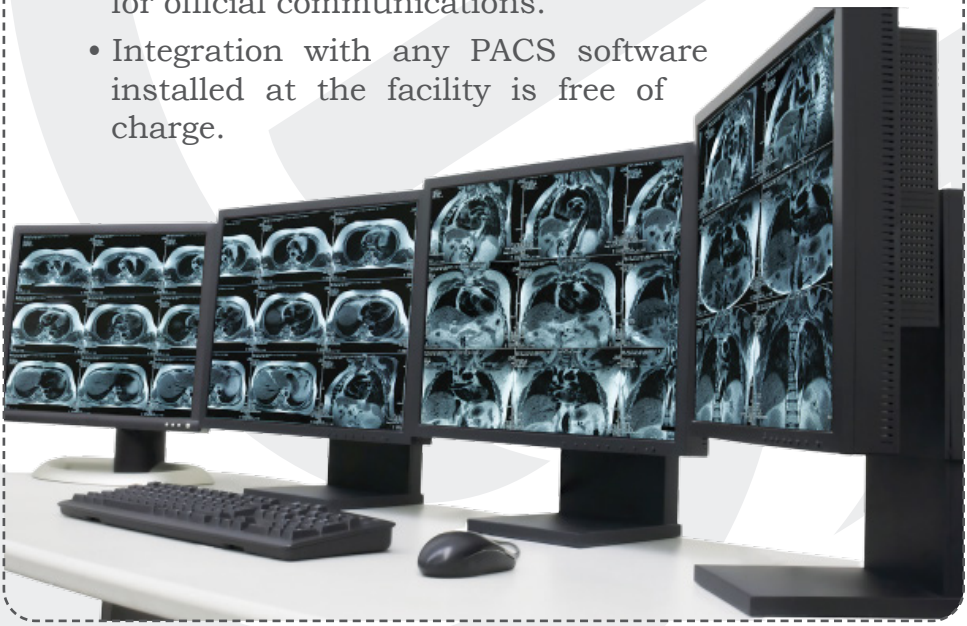
  1. Providing adequate *high speed internet connection* to ensure timely study uploading (DSL connection with minimum upload speed 4Mbps).

  2. Providing dedicated PC to install the Automatic Uploader of studies to link Scanners at the facility with **Expert-i** Cloud-PACS platform.

  3. Submitting radiology request ticket for each patient to **Expert-i** Coordinators via PC or Smartphone.

  4. Providing valid Phone numbers and email address for official communications.

- Integration with any PACS software installed at the facility is free of charge.



BENEFITS

Save Time

i. Increased coverage time (24/7 service available).

ii. Same day reporting.

iii. **Fast response for emergency** cases (<2 hours).

Reduce Cost

i. **Radiologists:** Minimized number of onsite radiologists, no workstations needed, no sick-leaves, no transportation delays.

ii. **IT support:** No need to hire dedicated IT engineers.

iii. **Administration:** No extra personnel needed on site.

Increase Referrals

i. Better reporting quality and fast turn-around time.

ii. Better physician satisfaction.

iii. Increased referral rate.

iv. Increased business profits.

SERVICES

1. Full Time Coverage of all Radiological Examinations Including:

- CT
- MRI
- X-ray
- Mammogram
- PET-CT & Nuclear Medicine
- Reporting Templates using latest ACR guidelines and ACR reporting and data systems (American College of Radiology ACR-RADS).

2. Sub-Speciality Reporting

Dedicated highly specialized expert radiologists specialized in different radiology fields; covering advanced imaging techniques including:

- Musculo-Skeletal radiology.
- Advanced Head & Neck imaging techniques.
- MR spectroscopy, perfusion, tractography and CSF flowmetry.
- Advanced Abdominal & Pelvic imaging.
- Women & Breast imaging.

SERVICES

3. Second Opinion Reporting

We offer second opinion reads for all examinations in order to:

- Confirm diagnosis.
- Elaborate and explain radiological abnormalities.
- Help physicians take the best informed decision.

4. Medical Staff Training Services

Integration of In-House Radiologists in our reporting workflow to improve quality of service and enhance their reporting abilities.

5. Technical Staff Training Services

Providing scanning guidelines, training and documentation is available upon request to ensure standardized scanning protocols according to latest imaging guidelines.

6. Radiology Department Management

Offering Full Management services to operate radiology departments in hospitals and healthcare facilities according to client needs.

WHY TO CHOOSE EXPERT-I

15+ Years Experience

Our Experts are MD certified with massive experience

99.7% Accuracy Reporting

Top quality structured reporting written & verified by expert eyes

All-In-One Solution

We cover all radiology subspecialties

Speed

Super-fast emergency services (30 minutes TAT)

Contract for FREE

No obligations, Pay as you go

Advanced Technology

Using cutting-edge workflow management platforms

EXPERT-i
TELERADIOLOGY SOLUTIONS

TELERADIOLOGY SERVICES?

Full-Service Coverage

50+ radiology consultants cover all specialties

NightHawk Services

24/7 diagnostic reporting support

Tailored Solutions

Based on your facility needs & budget

Go live in 24 HRs

Our expert IT staff can provide a super-fast onboarding

Easy Collaboration

Communicate with our expert in a timely manner

Real-time Notifications

You will get notifications once the report is verified
